

ARQ™

The harmony of geometry

Meet Arq™, a Makrolon®* polycarbonate collection featuring a 20/80 configuration split which maximizes volume and guarantees great packing flexibility. The overall boxy design ensures every corner of the case is utilised. The check-in sizes are mounted with a brand

new innovative Aero-Trac™ suspension wheel system, which effectively reduces rolling vibration and noise. Decorated with simple yet modern fine grooves, as well as a carefully designed outer shape, Arq is a true masterpiece that combines great function with style.

20/80 split

- ▶ 20/80 configuration split ensuring flexibility and large packing volume
- ▶ Two dividers including cross ribbons in the bottom compartment
- ▶ A wet and apron pocket to store your small essentials
- ▶ Fully lined interior

Trend-setting modern design

Fine horizontal and vertical grooves

Dual tube pull handle

Integrated ID-tag

Aero-Trac™ suspension wheels

Available on check-in sizes for smooth and comfortable travelling

20/80 volumax™ configuration split
